This procurement process is governed in accordance with the requirements of the City's Procurement By-law (No. 0013-2022) in addition to the following policies:

- No.01-03-04 - Respectful Workplace
- No.01-07-01 - Workplace Violence
- No.03-06-02 - Bid Review and Evaluation - High Value Acquisitions
- No.03-06-08 - Bid Awards and Bid Protests
- No.03-08-04 - Supplier Performance Management and Suspension
- No.03-06-09 - Sustainable Procurement Policy (including appended Supplier Code of Conduct)
- No.03-06-11 - Bidding Procedures for Publicly Advertised High Value Acquisitions

It is the Bidder's responsibility to become familiar with and comply with the City's purchasing policies.

All other City policies are available at: www.mississauga.ca

Schedule of Prices

All pricing submitted by the bidder shall be EXCLUSIVE of HST and shall be in Canadian dollars unless otherwise specified in the bid document.

* Denotes a "**MANDATORY**" field

Pricing Schedule - Currency

Question	Response *
Prices should be provided in Canadian funds, inclusive of all applicable duties and taxes except for HST, which should be itemized separately. Where prices are submitted in a currency other than Canadian currency, the prices will be converted to Canadian currency using the average of rates of exchange published by the Bank of Canada on the Closing Date. Indicate the currency that prices are being submitted in.	

Annual Software Licenses / Subscription Cost (Year 1-5)

Bidders to provide a complete payment model/price schedule, including all applicable fees and costs to the City of Mississauga for implementation of the system and a 5 year contract, which may include annual software/subscription costs, professional services, annual maintenance & support, hardware & equipment (if applicable).

Software Licenses/Subscription Costs Per Year

Bidders are to indicate if subscription/software license costs are based on the number of users, number of programs, a combination of these, or something else.

	Quantity
Number of Business Units/Separate URLs	4
Number of Programs/Grants/Intake Forms/etc.	2-14/business unit
Number of Applications Submitted	up to 2000/site
Number of Administrators (internal City staff)	10
Number of Reviewers (internal staff & external representatives)	50
Number of Approvers (internal City staff)	10
Number of Applicants (external users)	1,000
Number of Read-Only users (internal City staff)	30

Line Item	Annual Software/Subscription Cost	Amount (excluding taxes) *	Extended Total
1	Year 1 - Software License/Subscriptions		
2	Year 2 - Software License/Subscriptions		
3	Year 3 - Software License/Subscriptions		
4	Year 4 - Software License/Subscriptions		
5	Year 5 - Software License/Subscriptions		
		Subtotal:	

Hardware & Equipment (if applicable) Cost (Year 1-5)

Bidders to provide a complete payment model/price schedule, including all applicable fees and costs to the City of Mississauga for implementation of the system and a 5 year contract, which may include annual software/subscription costs, professional services, annual maintenance & support, hardware & equipment (if applicable).

Contact Information

Please complete the required contact information for this procurement process.

Line Item	New Column	Bidder Response *
1	Full Legal Name of Bidder. Indicate whether other company names are used (i.e. Operating As, etc.)	
2	Address of Bidder's Head Office. Indicate if this is where invoices will be issued from.	
3	Bidder's HST number	
4	Name and title of Bidder's primary contact for this procurement	
5	Email address of primary contact	
6	Phone number of primary contact	
7	Name of person that has authority to bind the bidder's company. Note that IF an agreement is to be executed, this is the person that will execute the agreement on behalf of the bidder.	
8	Email address for person with binding authority	
9	Prices should be provided in Canadian funds, inclusive of all applicable duties and taxes except for HST, which should be itemized separately. Where prices are submitted in a currency other than Canadian currency, the prices will be converted to Canadian currency using the average of rates of exchange published by the Bank of Canada on the Closing Date. Indicate the currency that prices are being submitted in.	

City's Tariff Response

For the purposes of the City's Tariff Response:

a. **"US Bidder"** means a bidder that:

a) is a service provider, supplier, manufacturer, or distributor operating on a permanent basis in the United States; and

b) employs more than sixty-five percent (65%) of its full-time employees within the United States on the bid closing date.

b. **"Non-US Bidder"** means a bidder that does not meet the criteria of a US Bidder.

Line Item	Question	Response *
1	The bidder has thoroughly reviewed the definitions above and declares that it is a US Bidder	○ Yes ○ No

Mandatory Technical Requirements

The mandatory requirements must be met and during the proposal review this will be used to determine if the Bidder's product will meet the City of Mississauga's needs. Please complete the **Mandatory Technical Requirements** for this procurement process.

Legend	Priority	Criteria for Priority Ranking
Mand.	Mandatory	Must have features and functionality

Definition	Response
This requirement currently exists and can be demonstrated by proponent's solution (identify if provided by a third party solution).	Y = Yes
This requirement is not supported and/or is not provided as part of this proposal.	N = No

Line Item	Description	Criteria	Priority	Yes/No *	Bidder Response/Comments
1	M1	Software must be a SaaS web/cloud-based solution.	Mand.	○ Yes ○ No	
2	M2	Software will allow for configuration changes in the future.	Mand.	○ Yes ○ No	
3	M3	Applicants will have 'Save' and 'Save & Submit' options so they are able to save progress and continue working on application at a later date.	Mand.	○ Yes ○ No	

Schedule A - Company Qualifications & Experience

Please complete Schedule A - Company Qualifications & Experience.

In particular, the City prefers Proponents with recent experience (within the last two (2) years) with a minimum of two (2) years of experience in the following areas.

Provide information on your comprehension of the scope of work and indicate any key challenges and risks (if any) associated with the noted requirements.

Screenshots may be included in your response with the redaction of any private and confidential information. Please include these in the Document Upload section.

Evaluation = 10.00 points

Line Item	Description	Vendor Response *
1	a. Firm's brief history with highlights of services provided. Include length of time in business, core competencies, company structure and certifications;	
2	b. Outline relevant business experience, years in business, and company personnel structure;	
3	c. Confirm the firm's ability and capacity to perform work as outlined in Statement of Work;	
4	d. The proposed Project Manager has successfuly led a project of similar scope and magnitude within the last two (2) years;	
5	e. The proposed Key Personnel and project team has the capacity, expertise, knowledge, resources and skills to meet the City's needs for the duration of the contract and to deliver the project on time and within budget;	
6	f. Demonstrated experience providing professional quality reporting to facilitate business decision-making;	
7	g. Minimum two (2) examples/references of previous projects where it was completed and/or successfully implemented is required.

Schedule B - Project Team, Methodology & Approach

Please complete Schedule B - Project Team, Methodology & Approach.

Provide information on your comprehension of the scope of work and indicate any key challenges and risks (if any) associated with the noted requirements.

Upload to Document Upload Section: Curriculum Vitae – Account Management Team and Document, in the City's e-bidding system.

Upload to Document Upload Section: Curriculum Vitae – Sub-Contractors, in the City's e-bidding system.

Evaluation = 5.00 points

Line Item	Description	Vendor Response *
1	a. Describe your approach to project management delivery including: i. Project kick off, planning, analysis, meeting project goals, scheduling implementation of the solution. ii. Analysis of requirements and gap reporting, and proposed solution design/configuration and documentation.	
2	b. Describe the Bidder's methodology and approach to satisfy the requirements of the Statement of Work and the successful delivery: i. Describe in detail the services that you intend to provide. ii. Provide a resource plan including project organizational structure (including subcontractors or suppliers), roles and responsibilities. Include expected resource needs from the City such as project team, service areas, and technical specialists.	
3	c. Describe the Bidders' approach to risk management, and risk mitigation. Include methodology on how information in product is to be collected, monitored, and assessed for risk and threat content on social media sites, ensuring privacy of private accounts.	
4	d. Describe the Bidder's Quality Assurance Plan; ensuring regard for personal information is maintained: i. Identify actions/processes to be taken to ensure the sub-consultants assigned to the Project will be successful; ii. Describe your approach to configuration, integration, including: Configuration of the solution, configuration of workflows, reporting, integration iii. Describe your approach to assisting City Staff with User Acceptance Testing	
5	e. Continuous improvement practices implemented by the bidder to address gaps and inconsistencies.	
6	f. Describe your approach to training, including: i. Training plan, methods and tools (including samples) to deliver training remotely to City staff. ii. Facilities, equipment, and materials required to conduct training in-person and/or online training	
7	g. Describe your approach to implementation; i.e. deployment of the SaaS solution, integration, and automation tools (e.g. native, software-software interface, third-party).	
8	h. Describe your approach to system sustainment and viability over the duration of the contract, including: i. Ongoing release cycle (including version upgrades, upgrades, patches, fixes, and forced updates, and fixes), expected frequency, documentation, testing plan, and training methods.	
9	i. Describe your approach to end user support, including: i. Hours of service ii. Response time iii. Escalation process iv. Self-service support	
10	j. Proposed Account Management Team: Provide curriculum vitae/resume and any relevant and required certifications/licenses for the proposed account management team outlining relevant technical experience, qualifications and skills.	
11	k. Proposed Sub-Contractors: Provide the names of the proposed sub-contractors that the bidder will use for emergency purposes along with a brief description of firm. Include the number of years in operation under same name. Provide a brief history of the firm, with highlights of services provided, and outline relevant business experience.	

Schedule C - Business Requirements

Please complete Schedule C - Business Requirements

The following is a list of the Business and Functional Requirements that the solution should meet. The priority is categorized as:

Requirements Prioritization

Legend	Priority	Criteria for Priority Ranking
Hi	High	Features and functionality required for normal and basic business operations.
Med	Medium	Features and functionality needed in a longer term, that will help to automate and optimize processes.
Low	Low	Nice-to-haves. Features and functionality needed at a later stage, considered as wish list of future improvements.

Evaluation Weight = 35.00 points

Line Item	Business Req. #	Requirement Name	Description	Priority	Bidder Response *
1	BR. 1	5.2.1 Functional Requirements	Software should be an end-to-end solution that provides application submission/intake, review, approval, reporting/final reports, and archiving capabilities to support business processes of each unit.	H	
2	BR. 2	5.2.1 Functional Requirements	Administrators will be able to test an application in a "test environment.	H	
3	BR. 3	5.2.1 Functional Requirements	Administrators can reopen individual applications for editing to provide customer support while the program remains closed publicly after the deadline.	H	
4	BR. 4	5.2.1 Functional Requirements	Administrators will be able set an application intake period as open year-round (no closing date), have a set start and end date, or have multiple intake periods. Describe how multiple intake periods work in your software.	H	
5	BR. 5	5.2.1 Functional Requirements	Software can run consecutive years of a grant cycle with customizable due dates per granting stream (e.g. open for the next cycle while collecting final reports from previous cycle). Describe how your software can accomplish this.	H	
6	BR. 6	5.2.1 Functional Requirements	Administrators will be able to set an application visibility as open to the public or by invitation only.	H	
7	BR. 7	5.2.1 Functional Requirements	Administrators will be able to create new applications each year and reuse previous years' applications as desired (copy/duplicate application function to build on previous application and make edits as needed).	H	
8	BR. 8	5.2.1 Functional Requirements	Administrators or applicants will be able to create applications (or sections of a previous application) where information entered by applicants in previous year's application can be carried over to subsequent year's application.	H	
9	BR. 9	5.2.1 Functional Requirements	Administrators will be able to create a 1- 7 stage application process. Examples: - 1) a pre-screening questionnaire (eligibility screening) - 2) application - 3) review - 4) reference check - 5) approval / decline - 6) reporting / final report collection - 7) archive	H	
10	BR. 10	5.2.1 Functional Requirements	Administrators will be able to create multiple applications that will be listed on the portal for applicants to select the appropriate application (and with the appropriate reviewers).	M	
11	BR. 11	5.2.1 Functional Requirements	Applications can have different status/milestones (i.e. In Progress, Submitted, Under Review, Incomplete, Complete, Closed, etc.).	M	
12	BR. 12	5.2.1 Functional Requirements	Administrators can assign labels to applications/applicants without the applicant seeing, or controlling when this would be visible to the applicant while moving through the workflow.	M	
13	BR. 13	5.2.1 Functional Requirements	Administrators can change status manually outside of the workflow.	M	
14	BR. 14	5.2.1 Functional Requirements	Ability to archive records based on cycle (e.g., 2025 grant applicants).	L	
15	BR. 15	5.2.1 Functional Requirements	Ability to include hyperlinks within the applications that link to external webpages, documents or email addresses.	H	
16	BR. 16	5.2.1 Functional Requirements	Administrators able to create unique evaluation forms for each application type/category.	H

WWW.BIDSANDTENDERS.COM – ORIGINAL DOCUMENT SOURCE

17	BR. 17	5.2.1 Functional Requirements	Software should allow Administrators to customize which information from the applicants is viewable to different Reviewers (e.g. having some information visible only to the Administrators and not the Reviewers).	H	
18	BR. 18	5.2.1 Functional Requirements	Solution should provide separate and distinct access, for both public access and administrative access, to each of the four (4) portals (grants portal, event application portal, public art portal, and tourism event hosting application portal). I.e. a separate or distinct website with a unique URL, a multi-tenant environment, a single tenant environment with distinct groups, or by some other method. Describe how your software can accomplish this.	H	
19	BR. 19	5.2.1 Functional Requirements	Number of applications/calls per year: - Grants Portal:8 – 10 grants streams, 2 – 5 calls for applications a year - Events:3 applications opportunity for 1 addition, 2 calls per year - Public Art :10-12 programs each year, each program is a unique "stream", changing every year - Tourism: 1 (ongoing)	H	
20	BR. 20	5.2.1 Functional Requirements	Applicants will have a 'Cancel application' option if they wish abandon/stop the application process and withdraw their partial application at any time.	M	
21	BR. 21	5.2.1 Functional Requirements	Applicants will be able to call up their past submissions to update information, upload newer attachments or move attachments forward year to year, and re-submit (i.e. copy application submission).	M	
22	BR. 22	5.2.1 Functional Requirements	Applicants will be able to create a profile/account and manage their account information (i.e. change passwords, update and change their contact information at any time).	H	
23	BR. 23	5.2.1 Functional Requirements	Upon closure of event, City staff users submit feedback regarding the event (e.g. post event survey or notes) for the Event application portal.	M	
24	BR. 24	5.2.2 Uploads, Downloads, File Attachments	Applicants will be able to upload various file types including but not limited to word, excel, pdf, video, images (pjeg, gifs), audio, and links to external sites. Describe the file formats your software can support for file upload.	H	
25	BR. 25	5.2.2 Uploads, Downloads, File Attachments	Applicants will be able to upload up to 50 attachments per application - Grants (5 – 50) - Events (5 - 20) - Tourism (5-20) - Public Art (20 - 30)	H	
26	BR. 26	5.2.2 Uploads, Downloads, File Attachments	The solution should provide the ability for download of any files that have been uploaded in the solution, in the same format that it was uploaded.	H	
27	BR. 27	5.2.2 Uploads, Downloads, File Attachments	Administrators and Reviewers will be able to view and download various file attachments submitted by applicants, in various formats including but not limited to word, excel, pdf, video, images (pjeg, gifs), and audio.	H	
28	BR. 28	5.2.2 Uploads, Downloads, File Attachments	Reviewers capabilities to download file attachments will be permissioned based, depending on user privileges.	M	
29	BR. 29	5.2.2 Uploads, Downloads, File Attachments	Administrators will be able to download entire application submission (not just the attachments).	M	
30	BR. 30	5.2.2 Uploads, Downloads, File Attachments	The solution should export data and records in the following formats Excel, CSV, Word, and PDF. Describe the file formats your software can support for file download and data exports.	H	
31	BR. 31	5.2.2 Uploads, Downloads, File Attachments	Administrators will be able to build a table into the application with some basic calculations preprogramed (e.g. financial/budget templates, event cost estimations based on resources needed).	M	
32	BR. 32	5.2.2 Uploads, Downloads, File Attachments	Administrators will be able to embed an excel template to the application for applicants to fill out (e.g. budget template).	M	
33	BR. 33	5.2.2 Uploads, Downloads, File Attachments	Administrators and Reviewers will be able to compare applications submissions within the same year, between different year submissions, and between the different modules (i.e. grants, events).	M	
34	BR. 34	5.2.2 Uploads, Downloads, File Attachments	Applicants will be able to upload files up to 25MB in size.	M	
35	BR. 35	5.2.2 Uploads, Downloads, File Attachments	For files larger than 25MB applicants will be able to share a link to their own file sharing drop box or applicants will be directed to a link the City's file sharing drop box (¼ of file attachments are large than 25MB). Or present a solution to address attaching/transferring files larger than 25MB?	M	
36	BR. 36	5.2.3 User Permission / User Profile Types Number of users are based on current budget and may change over time (i.e. numbers increase by up to double)	Software must support applicant, administrative, and reviewer roles and permissions	H	
37	BR. 37	5.2.3 User Permission / User Profile Types Number of users are based on current budget and may change over time (i.e. numbers increase by up to double)	Administrator (internal staff only) - Create, modify, disable user profiles and privileges - Assign specific application intake forms or application submissions to certain Reviewers - Create, modify, edit applications - Modify, edit, comment on application submissions - Download application submissions and attachments - Push submitted applications back to the applicant for the applicant to edit or add additional information or file attachments - Create, modify, edit email notifications content - Assume any users' roles to see what they see (including applicant role) - Run reports - All functions - See applications "In progress" and able to send reminders to applicants to complete application before the deadline Number of Admin users needed for each section: - Grants Portal (3-5) - Events (5) - Public Art (3) - Tourism (2)	H	
38	BR. 38	5.2.3 User Permission / User Profile Types Number of users are based on current budget and may change over time (i.e. numbers increase by up to double)	Reviewer (internal staff and external representatives) - Read/view, comment, provide feedback on application submissions and attachments - Only view application submissions for specific application types depending on permissions granted (e.g. Community Grant, Arts & Culture, etc.) - Only view application information that is approved by the Administrator (i.e. the Administrator can control what parts of the application they can review, not the contact information for example) - Ability to declare conflict of interests on applications as needed; notification to Administrators when conflict of interests are declared. - Not able to make the final decision/approval - Download application submissions and attachments (if granted permission, not all Reviewers will be allowed to download) - Can interact with and see who the other Reviewers are or not, depending on permission level - Read others' comments, if granted permission - Not able to contact the applicants directly through the software - Once approved, can no longer see application submission (archived), unless permission granted otherwise - Run reports (if granted permission, not all Reviewers will be allowed to run reports) - Can be a specific individual or a generic login shared by multiple staff Number of users needed for each section: - Grants Portal (10 – 30; CD, Finance, Peer Assessors) - Events (25-40; Fire, Mobile Licensing, etc.) - Public Art (3 – 50 internal and external that changes based on project/submission) - Tourism (2 – 19; internal and external, tourism advisory panel)	H	
39	BR. 39	5.2.3 User Permission / User Profile Types Number of users are based on current budget and may change over time (i.e. numbers increase by up to double)	Approver/Manager (internal staff) - Final approver - Provide recommendations (e.g. finance review of grants) - Read/view, comment, provide feedback on application submissions - Separate from the Reviewers role Number of users needed for each section: - Grants portal (2-3) - Events (3) - Public Art (2-3) - Tourism	H

40	BR. 40	5.2.3 User Permission / User Profile Types Number of users are based on current budget and may change over time (i.e. numbers increase by up to double)	Applicant (external users) - View applications, start, save progress, continue working on existing application (within the open intake period), submit application - Review/read submitted application, but not edit it - Download their application submissions (pdf) - Able to unsubscribe to marketing emails/notifications only (not able to unsubscribe to business notifications) Number of users needed for each section: - Grants Portal (CD) (200-250/year) - Events (250/year) - Tourism (30-50/year) - Public Art (700-1000/year average)	H	
41	BR. 41	5.2.3 User Permission / User Profile Types Number of users are based on current budget and may change over time (i.e. numbers increase by up to double)	View Only/Reports Only (internal staff) - Access to run reports - Read only access to application submissions - Not able to download application submissions and attachments - No edit, modify, or comment privileges - Can be a specific individual or a generic login shared by multiple staff (e.g. Parks staff to view info on events with an outdoor component) Number of users needed for each section: - Grants Portal (5 - 8) - Events (5) - Public Art (3 - 30) - Tourism (1)	M	
42	BR. 42	5.2.3 User Permission / User Profile Types Number of users are based on current budget and may change over time (i.e. numbers increase by up to double)	User profile types are preset, but Administrators will have some limited capability to modify the privileges.	M	
43	BR. 43	5.2.3 User Permission / User Profile Types Number of users are based on current budget and may change over time (i.e. numbers increase by up to double)	User profiles can be disabled when no longer required (e.g. staff leaving the department) and to allow for other profiles to be created and active. - Users would not be deleted to preserve records	M	
44	BR. 44	5.2.3 User Permission / User Profile Types Number of users are based on current budget and may change over time (i.e. numbers increase by up to double)	Administrators will be able to assign tasks to people.	L	
45	BR. 45	5.2.3 User Permission / User Profile Types Number of users are based on current budget and may change over time (i.e. numbers increase by up to double)	Staff (Administrators) are able to easily configure business rules, workflow processes, triggers, and generate automatic emails based on trigger criteria (e.g., dates, status, milestones, etc.).	H	
46	BR. 46	5.2.4 Reports	Reports can be exported to file type excel (xls).	H	
47	BR. 47	5.2.4 Reports	Reports can be exported to file type word or pdf.	M	
48	BR. 48	5.2.4 Reports	Reports will have a search function to search for content within the report, so staff don't have to download reports into excel then search within excel.	M	
49	BR. 49	5.2.4 Reports	Administrators will be able to create new custom reports across all program/grant streams (e.g. multiple grant streams or single).	H	
50	BR. 50	5.2.4 Reports	Workflow stage that includes a final report for grant recipients (successful applicants answer questions related to their funding/successes/challenges/etc.).	H	
51	BR. 51	5.2.4 Reports	Reporting capabilities should include: - Number of Applicants during a specific custom date range - List of applicants (including contact info) filtered by various search parameters (e.g. all applicants for a specific application type, applicants who requested specific services) - Applicant status report and completion rate report (including average time to complete application - Compliance reporting to summarize applications that have met all required conditions for final approval. - Missing incomplete documentation report to list applications missing required attachments - User profiles and privileges list (to be reviewed by a Manager and modify profiles as necessary) report only available to Administrator User roles - Compare and compile various reports across the different departments/modules into a single report - Track review and approvals process, progress meter/visual management (where are they in process, how many and which applications are at each stage of the process, etc.) - Year-end metrics including how many were invited, how many completed on time, how long to complete application, how long reviewers need to complete, etc. - Reporting on any of the fields of data	M	
52	BR. 52	5.2.4 Reports	Events: - Scoring and Ranking Report detailing the number of applications approved, declined, or waitlisted with reasons. - Event Calendar Allocation Report identifying the approved events mapped against the available dates. - Awarded Dates vs. Requested Dates Report analyzing how many applicants received their preferred event dates. - Event Outcome Report to summarize event organizer feedback, attendance, incidents reported, staff feedback - Year-over-year comparison report to analyze application trends and improvements over multiple seasons	M	
53	BR. 53	5.2.4 Reports	Grants Portal: - Value ($) requested versus value ($) granted - Number of applications accepted, number rejected, etc. - Impact, what was funded, trends, commonalities - Return on investment – value of the grant versus value of in-kind support provided by the group - Number of projects filtered by various search parameters (e.g. neighbourhood, per district, ward, etc.) - How much funding an applicant received (municipal, provincial, federal)	M	
54	BR. 54	5.2.4 Reports	Tourism: - Types of sports/events - Number of nights stayed, hotel rooms booked, hotel conference rooms required, etc. (report may be shared with hotel partners, etc.) - Attendance filter - Comparison over time period to identify peak periods and low periods	M	
55	BR. 55	5.2.4 Reports	Public Art: - Reviewer (internal and external) scores and notes - Full applications in one excel sheet be able to be pulled for each program - Info about the applicants including geographical location to evaluate the reach with each call to artist - Individual or a group applicant	M	
56	BR. 56	5.2.5 Automation / Notifications	Notifications can be configured to be automated or manually triggered by Administrators.	H	
57	BR. 57	5.2.5 Automation / Notifications	Administrators will be able to edit content/messaging of email notifications.	H	
58	BR. 58	5.2.5 Automation / Notifications	Automated email notification sent to a list of applicants when an application intake period opens.	H	
59	BR. 59	5.2.5 Automation / Notifications	Automated email notification sent to applicants specifically invited to apply, email includes unique number access code or user name and password required to apply.	M	
60	BR. 60	5.2.5 Automation / Notifications	Applicant will receive an email notification when an account has been created on their behalf, notification will contain their login credentials and instructions.	H	
61	BR. 61	5.2.5 Automation / Notifications	Applicants, Administrators and Reviewers will receive a notification when an application is submitted (as applicable).	H	
62	BR. 62	5.2.5 Automation / Notifications	Administrators and Reviewers will receive an email notification when application intake period has closed and they can start reviewing submissions.	M	
63	BR. 63	5.2.5 Automation / Notifications	Staff will receive a notification when an applicant fails the pre-screening questionnaire and is not eligible to continue with the application process.	M	
64	BR. 64	5.2.5 Automation / Notifications	Staff will receive a notification when an application is abandoned, not completed, not submitted after a set number of days for staff follow up.	L	
65	BR. 65	5.2.5 Automation / Notifications	Staff will receive a notification when applications have not submitted and the intake window will be closing within a few days.	L

66	BR. 66	5.2.5 Automation / Notifications	Staff will receive a notification when files uploaded during phase 2/3 of the application process (e.g. alcohol permits).	M	
67	BR. 67	5.2.5 Automation / Notifications	Staff will be able to set which email address is used for notifications.	M	
68	BR. 68	5.2.5 Automation / Notifications	Staff will be able to control for themselves which notifications they receive.	M	
69	BR. 69	5.2.5 Automation / Notifications	Applicants will receive an email notification when submission deadline is approaching, if they haven't submitted yet (various deadline reminders as set by Administrators, e.g. 7 day reminder, 1 day reminder, etc.).	L	
70	BR. 70	5.2.5 Automation / Notifications	Applicants will receive an email notification when next phase of process begins.	L	
71	BR. 71	5.2.5 Automation / Notifications	Applicants will receive an email notification when their application has been sent back for their follow up.	M	
72	BR. 72	5.2.5 Automation / Notifications	Applicants will receive an email notification when their submission is in the review process.	L	
73	BR. 73	5.2.5 Automation / Notifications	Applicants will receive an email notification when there is a response to their submission (accepted, rejected, follow up requested).	L	
74	BR. 74	5.2.5 Automation / Notifications	Reviewers will receive an email notification when an evaluation deadline is approaching, if they haven't completed it yet (various deadline reminders, e.g. 7 day reminder, 1 day reminder, etc.).	L	
75	BR. 75	5.2.5 Automation / Notifications	Staff will receive an email if a Reviewer declares a Conflict of Interest on an Application.	M	
76	BR. 76	5.2.5 Automation / Notifications	Staff will be able to send a mass email to all applicants (BCC so applicants can't see who else has been included in the email).	M	
77	BR. 77	5.2.5 Automation / Notifications	Applicants will be able to unsubscribe to marketing emails/notifications only (not able to unsubscribe to business notifications).	L	
78	BR. 78	5.2.6 Architecture - Interfaces, Integration	Ability to integrate with SharePoint – sending information to SharePoint (e.g. archiving of applications).	M	
79	BR. 79	5.2.6 Architecture - Interfaces, Integration	Grants: - Ability to integrate with SAP (for cheque / payment requisitions) for the purposes of inputting information directly to SAP rather than separate forms that must be completed by the applicant and sent back via email.	L	
80	BR. 80	5.2.6 Architecture - Interfaces, Integration	Events: - Ability to integrate with Infor – to pull information from Infor (i.e. public feedback on events)	L	
81	BR. 81	5.2.6 Architecture - Interfaces, Integration	Events: - Ability to integrate with MS outlook – search/pull calendar availability and push information into calendar invitations.	L	
82	BR. 82	5.2.6 Architecture - Interfaces, Integration	Events: - Ability to generate calendar appointments that can be emailed and synced to various calendar tools.	L	
83	BR. 83	5.2.6 Architecture - Interfaces, Integration	Public Art integrations - Ability to share link to program page on Social media (facebook, twitter, Instagram, LinkedIn).	L	
84	BR. 84	5.2.6 Architecture - Interfaces, Integration	Public Art integrations - Ability to link to the program page from the City's Call for Submission page (https://www.mississauga.ca/arts-and-culture/arts/calls-for-submission/)	L	
85	BR. 85	5.2.6 Architecture - Interfaces, Integration	The system can provide a link to live application which can be shared with other teams (e.g. marketing) which provides read only access to only that application.	H	
86	BR. 86	5.2.7 Data Retention	The solution should retain all the City data for a minimum period of 7 years (City standard), or as defined by each business unit. Records will be stored and available on the software for the following number of years: - Events (7 years) - Grants (4-year financial information required) - Tourism (3+ years) - Public Art – project duration 1-6months, archived at project closure, destroyed at end of warranty (up to 3-5 years)	H	
87	BR. 87	5.2.7 Data Retention	Data can be archived and still accessible to staff for a minimum of 7 years.	H	
88	BR. 88	5.2.7 Data Retention	Archived data will still be viewable/retrievable even after changes are made to the application form.	H	
89	BR. 89	5.2.7 Data Retention	All data collected by the City of Mississauga will remain the legal property of the City of Mississauga.	H	
90	BR. 90	5.2.7 Data Retention	Describe any space or size limitations of the system for all data records, including archived records.	H	
91	CASL.1	5.2.8 Risks / Privacy / Commercial Anti-Spam Legislation (CASL)	The solution must provide options to allow the City to obtain consent from users prior to sending commercial electronic messages (CEM).	H	
92	CASL.2	5.2.8 Risks / Privacy / Commercial Anti-Spam Legislation (CASL)	The solution must provide options when sending commercial electronic messages to allow staff to identify which line of business is sending the event reminders and other emails (e.g. options to modify the email templates and reminders)	H	
93	CASL.3	5.2.8 Risks / Privacy / Commercial Anti-Spam Legislation (CASL)	The solution must provide a mechanism for users to unsubscribe from commercial electronic messages.	H	
94	CASL.4	5.2.8 Risks / Privacy / Commercial Anti-Spam Legislation (CASL)	Staff will be able to include disclaimers in applications with mandatory applicant acknowledgement and sign off.	H	
95	CASL.5	5.2.8 Risks / Privacy / Commercial Anti-Spam Legislation (CASL)	Administrators will be able to create a disclaimer regarding use and access to confidential information that all users (Administrators/ Reviewers/ Approvers/ View Only – internal staff and external users) must acknowledge and sign off.	H	
96	CASL.6	5.2.8 Risks / Privacy / Commercial Anti-Spam Legislation (CASL)	The system will have electronic signature capabilities.	H	
97	CASL.7	5.2.8 Risks / Privacy / Commercial Anti-Spam Legislation (CASL)	The system will include date/time stamps at any step of the way and log who made the changes, as part of an audit trail and proof of when an application was submitted.	H	
98	CASL.8	5.2.8 Risks / Privacy / Commercial Anti-Spam Legislation (CASL)	Clear separation and clarification of this contact info (public v. private), authorization to publicize contact info.	H	
99	CASL.9	5.2.8 Risks / Privacy / Commercial Anti-Spam Legislation (CASL)	Applicants who begin an application but do not complete it or submit, have not given authorization to contact (CASL compliance).	H	
100	TR. 1	5.2.9 Training & Support	Training plan to be approved by the City will include in person or virtual hands-on training and train-the-trainer training for IT and other identified City staff.	H	
101	TR. 2	5.2.9 Training & Support	Training will include training and support materials including comprehensive training manuals and/or user manuals.	H	
102	TR. 3	5.2.9 Training & Support	Administrator and Staff user manuals or training guides should be provided in digital, or online formats.	M	
103	TR. 4	5.2.9 Training & Support	Training should be conducted on a test platform with test data that mirrors the production platform.	M	
104	TR. 5	5.2.9 Training & Support	Post go-live, instructor-led training should be available on request.	L	
105	TR. 6	5.2.9 Training & Support	Post go-live, self-training should be available to staff. Describe the modules and how this training can be accessed.	M	
106	TR. 7	5.2.9 Training & Support	Vendor will provide ongoing support and site/process improvements, as requested by the City.	H	
107	TR. 8	5.2.9 Training & Support	Vendor will provide technical support for external users (i.e. applicants).	L	
108	TR. 9	5.2.9 Training & Support	Training will include training and support materials for external users (i.e. applicants).	L	
109	AUI. 1	5.2.10 Accessibility & User Interface	Any product of the solution should be compliant with the Integrated Accessibility Standards Regulation (IASR) under the Accessibility for Ontarians with Disabilities Act (AODA). This includes but is not limited to training videos, and documentation provided and accompanied with the solution.	H	
110	AUI. 2	5.2.10 Accessibility & User Interface	The solution should be compliant with the minimum standard for accessible digital content the Web Content Accessibility Guidelines (WCAG) 2.0 Level A and AA success criteria established by the World Wide Web Consortium (W3C).	H	
111	AUI. 3	5.2.10 Accessibility & User Interface	All documents published in Portable Document Format (PDF) and accessed through digital channels must be minimum PDF/Universal Accessibility (UA) conformant, as confirmed by passing the PDF Accessibility Checker (PAC 2021).	H	
112	AUI. 4	5.2.10 Accessibility & User Interface	The solution should have software evolvability to preserve conformance based on future versions of the WCAG and PDF/UA accessibility standards in light of new events that may include, but are not limited to, provincial legislation changes.	H	
113	AUI. 5	5.2.10 Accessibility & User Interface	The Solution should be compliant with the Municipal Freedom of Information and Privacy Act (MFIPPA) and the Personal Information Protection and Electronic Documents Act (PIPEDA).	H

114	AUI. 6	5.2.10 Accessibility & User Interface	The solution should be fully functional with the latest version of all standard web browsers, including Google Chrome, Microsoft Edge, Safari, and Firefox, and also work with the current supported versions of these browsers. Specify with which web browsers the solution currently functions.	H	
115	AUI. 7	5.2.10 Accessibility & User Interface	The solution should have software evolvability to preserve function with future versions of web browsers.	H	
116	AUI. 8	5.2.10 Accessibility & User Interface	The Solution should be responsive, and device and screen-size agnostic. The application should also automatically adjust to resizing of the browser window or changing of the zoom level.	H	
117	AUI. 9	5.2.10 Accessibility & User Interface	Administrators should be able to brand the site with its own branding and colours.	H	

Schedule D - Technical Requirements

Please complete Schedule D - Technical Requirements

In addition to responding to the IT checklists provided, the following list of the Technical Requirements for the new solution should be met. Please note areas for technical clarification are also included under the relevant sections.

Evaluation Weight = 35.00 points (part of the C. System Functionality and Technical Information evaluation category).

Line Item	Requirement Name	Req. #	Requirement Name	System or Technical Requirement	Bidder Response *
1	5.2.11 Technical Requirements	A1	A - Hardware and Platform	The solution shall be compatible with the City's hardware, software and system architecture (for example hardware, software, security systems) found in the IT checklists.	
2	5.2.11 Technical Requirements	A2	A - Hardware and Platform	The Solution should have the ability to integrate with City's Azure Active Directory system or ADFS (if the vendor is actively working to move from ADFS to Azure AD)The Solution must have the ability to provide data integration to City's Active Directory, email, and SAP systems.	
3	5.2.11 Technical Requirements	A3	A - Hardware and Platform	The Solution should have the ability to provide integration to City's email systems.	
4	5.2.11 Technical Requirements	A4	A - Hardware and Platform	The Solution should have the ability to provide integration to City's SAP systems.	
5	5.2.11 Technical Requirements	B1	B - Solution Architect Model	Vendor will be required to provide a logical diagram depicting the key functional and technical components of the solution with a description of the overall architecture of the proposed solution.	
6	5.2.11 Technical Requirements	B2	B - Solution Architect Model	Vendor is required to provide the City with: • Logic flow diagram • Data flow diagram • Network diagram • High level architecture diagram • High availability diagram with failover mechanism explained in detail • Data Dictionary available with the initial install to allow the creation of custom reports	
7	5.2.11 Technical Requirements	C1	C – Information Architecture Integration	The solution shall support real time integration.	
8	5.2.11 Technical Requirements	C2	C – Information Architecture Integration	Data and information source(s) and destination(s) shall be accessible to the City.	
9	5.2.11 Technical Requirements	C3	C – Information Architecture Integration	Solutions with APIs, customization or third-party products should be revealed in the proposal for City's review.	
10	5.2.11 Technical Requirements	C4	C – Information Architecture Integration	Provide details on the Quality of Service (QoS) such as availability, performance (example: response time, latency), reliability, recoverability, retention, disposal, archiving, etc.	
11	5.2.11 Technical Requirements	C5	C – Information Architecture Integration	System should be compatible with all City protocols and standards in the IT Infrastructure checklist (Cybersecurity SaaS Assessment Questionnaire).	
12	5.2.11 Technical Requirements	C6	C – Information Architecture Integration	System should allow City's management servers to manage the deployment and security of mobile devices and applications.	
13	5.2.11 Technical Requirements	C7	C – Information Architecture Integration	Full database exports: Describe how often this can be done and if there is a cost involved.	
14	5.2.11 Technical Requirements	C8	C – Information Architecture Integration	Solution should support two environments – 1) Test / Train; 2) Production environment. These environments should be available at all times. For the purposes of training, integration testing, and other forms of testing.	
15	5.2.11 Technical Requirements	C9	C – Information Architecture Integration	The solution should allow data APIs exposure to city for reporting purposes.	
16	5.2.11 Technical Requirements	C9	Data Management	Solution should support data hosting in Canada.	
17	5.2.11 Technical Requirements	C10	Data Management	Solution should have a backup data center.	
18	5.2.11 Technical Requirements	C11	Data Management	Solution should have the backup data center should not be located in the same geographical location as the primary data center.	
19	5.2.11 Technical Requirements	C12	Data Management	Options for data extraction should be available to be downloaded, exported or transmitted. What formats are supported?	
20	5.2.11 Technical Requirements	C13	Data Management	System should provide data retention and data archival. System has a process to remove/delete/purge/archive of data customizable to City business requirements (currently 7 years).	
21	5.2.11 Technical Requirements	C14	Data Management	Data and information transmission should be secure and encrypted.	
22	5.2.11 Technical Requirements	C15	Data Centre	Please state what certification and accreditations the data center currently has.	
23	5.2.11 Technical Requirements	C16	Data Centre	For both the primary and backup data centers, please state the data center location(s), ownership details, where the data would or can be potentially stored.	
24	5.2.11 Technical Requirements	C17	Data Centre	Industry standards & audits: City has the ability to audit system end-to-end.	
25	5.2.11 Technical Requirements	C18	Data Centre	State whether this solution is in a dedicated hosted environment or in a multi-tenant hosted environment.	
26	5.2.11 Technical Requirements	C19	Data Centre	Describe the method to provide the City full access to the application event logging.	
27	5.2.11 Technical Requirements	D1	D - Technical Architecture	The solution should be supported with redundancy or disaster recovery strategies.	
28	5.2.11 Technical Requirements	D2	D - Technical Architecture	Solution should have a high-availability failover system.	
29	5.2.11 Technical Requirements	D3	D - Technical Architecture	Provide a description of your disaster recovery plan (policies & procedures). The plan should include the following: • a Recovery Point Objective no longer than one hour • a Recovery Time Objective no longer than 80 hours • up to 8 hours as an assessment period to make the decision to declare a disaster and initiate move to failover system • daily full system backups occur and are stored in an online repository that is replicated to the disaster recovery location • backups are replicated from the primary site to the disaster recovery site in real time	
30	5.2.11 Technical Requirements	D4	D - Technical Architecture	What levels and solutions are available by vendor for Business Continuity should there be a failure in Vendor's system/infrastructure?	
31	5.2.11 Technical Requirements	D5	D - Technical Architecture	What services/mechanisms has the proposed solution adopted to ensure mitigations against DoS/DDoS?	
32	5.2.11 Technical Requirements	D6	Hardware	The system should support mobile platforms and devices.	
33	5.2.11 Technical Requirements	D7	Hardware	Any new recommended hardware should be IP v6 compliant.	
34	5.2.11 Technical Requirements	D8	Hardware	Software shall be compatible with McAfee Endpoint security threat prevention.	
35	5.2.11 Technical Requirements	D9	Software	The solution shall be compatible with TCP/IP (Ethernet) Network Protocols.	
36	5.2.11 Technical Requirements	D10	Software	All software applications must be IPv4 and IPv6 compatible.	
37	5.2.11 Technical Requirements	D11	Software	Identify any software components that must be deployed to the desktop necessary for the solution to work properly, including plugins, drivers, etc.	
38	5.2.11 Technical Requirements	D12	Software	All software must be maintained in a version that is currently manufacturer supported.	
39	5.2.11 Technical Requirements	D13	Network	Any port, protocol and anti-virus exception requirements and setting shall be identified.

40	5.2.11 Technical Requirements	D14	Network	If hosted solution, vendor must provide or recommend optimal network configurations (i.e. dedicated internet connection or a shared internet connection).	
41	5.2.11 Technical Requirements	D15	Network	System is responsive in timely manner. What are the current and expected system response time?	
42	5.2.11 Technical Requirements	D16	Network	Please provide port or firewall requirements/settings if any available.	
43	5.2.11 Technical Requirements	D17	Network	List the impact on internet bandwidth.	
44	5.2.11 Technical Requirements	D18	Network	Describe if the connection is available via a VPN, HTTPS, or other method. Please provide the performance differences between the different methods of connection.	
45	5.2.11 Technical Requirements	D19	Web and Mobility	Solution should provide support for multiple browsers, including but not limited to Google Chrome, Microsoft Edge, and Firefox.	
46	5.2.11 Technical Requirements	D20	Web and Mobility	Solution should be mobile-responsive or mobile-friendly. Describe any screen size limitations.	
47	5.2.11 Technical Requirements	D21	Web and Mobility	Solution should provide ongoing support for devices using the latest/most common versions of device firmware.	
48	5.2.11 Technical Requirements	D22	Operating System Requirements	OS requirements dependencies and limitations should be provided.	
49	5.2.11 Technical Requirements	D23	Operating System Requirements	OS maintenance should include update, patches, and enhancements as required to maintain operability.	
50	5.2.11 Technical Requirements	E1	E – Security and Compliance	The solution shall comply with applicable legislation and regulations including Accessibility for Ontarians with Disabilities Act 2005, the Municipal Freedom of Information and Privacy Act (MFIPPA), the Personal Information Protection and Electronic Documents Act (PIPEDA), Canada's Anti-Spam Legislation (CASL).	
51	5.2.11 Technical Requirements	E2	E – Security and Compliance	The solution should securely manage all user authentication, including administrator, reviewer and applicant.	
52	5.2.11 Technical Requirements	E3	E – Security and Compliance	The system shall support industry standard secure communication.	
53	5.2.11 Technical Requirements	E4	E – Security and Compliance	For remote support, the solution shall support Cisco VPN ASA AnyConnect.	

Privacy Impact Assessment

Please complete the Privacy Impact Assessment. Please provide information that addresses how the Bidder will go about carrying out the work.

Section	Category	Question	Your Response *	Our Comment	Scale	Recommendation/Mitigation	Action	Date Completed	Scale
Introduction		Describe the project/service, including its purpose, functions, and scope.							
Risk Identification	Type of Personal Information Involved (if doesn't apply, indicate N/A in "Your Response" Column	Only personal information, with no contextual sensitivities, collected directly from the data subject or provided with the consent of the data subject for disclosure under an authorized program.							
Risk Identification	Type of Personal Information Involved (if doesn't apply, indicate N/A in "Your Response" Column	Personal information, with no contextual sensitivities after the time of collection, provided by the data subject with consent to also use personal information held by another source.							
Risk Identification	Type of Personal Information Involved (if doesn't apply, indicate N/A in "Your Response" Column	Social Insurance Number, medical, financial or other sensitive personal information or the context surrounding the personal information is sensitive, personal information of minors or of legally incompetent individuals or involving a representative acting on behalf of the data subject							
Risk Identification	Type of Personal Information Involved (if doesn't apply, indicate N/A in "Your Response" Column	Sensitive personal information, including detailed profiles, biometrics, or the context surrounding the personal information is particularly sensitive.							
Risk Identification	Personal Information (PI) Transmission (if doesn't apply, indicate N/A in "Your Response" Column)	PI is transmitted using wireless/internet technologies.							
Risk Identification	Personal Information (PI) Transmission (if doesn't apply, indicate N/A in "Your Response" Column)	PI is transferred to a portable device (i.e., USB key, diskette, laptop computer), transferred to a different medium or is printed.							
Risk Identification	Personal Information (PI) Transmission (if doesn't apply, indicate N/A in "Your Response" Column)	PI is used in a system that has connections to at least one other system.							
Risk Identification	Personal Information (PI) Transmission (if doesn't apply, indicate N/A in "Your Response" Column)	PI is used within a closed system (i.e., no connections to the Internet, Intranet or any other system and the circulation of hardcopy documents is controlled).							
Risk Identification	Technology & Privacy The project/program involves: (if doesn't apply, indicate N/A in "Your Response" Column)	enhanced identification or authenticate an identifiable data subject							
Risk Identification	Technology & Privacy The project/program involves: (if doesn't apply, indicate N/A in "Your Response" Column)	surveillance							
Risk Identification	Technology & Privacy The project/program involves: (if doesn't apply, indicate N/A in "Your Response" Column)	automated personal information analysis, matching and knowledge discovery

Risk Identification	Storage/Server Location (if doesn't apply, indicate N/A in "Your Response" Column)	Outside of Canada							
Risk Identification	Storage/Server Location (if doesn't apply, indicate N/A in "Your Response" Column)	Outside of City premise but within Canada							
Risk Identification	Storage/Server Location (if doesn't apply, indicate N/A in "Your Response" Column)	On City premise with internet connection							
Risk Identification	Storage/Server Location (if doesn't apply, indicate N/A in "Your Response" Column)	On City premise without internet connection							
Compliance Analysis	Accountability	Who will be responsible for this project/service? Who will be responsible for the personal information/data involved in this project/service? Who will be responsible for your company's privacy policy?							
Compliance Analysis	Accountability	Provide all applicable legislation, regulations, policies, bylaws, Corporate reports, project charters, URL's, or any relevant documents concerning the project/service/company. Email/upload documents to your City staff contact.							
Compliance Analysis	Identifying the Purpose	Provide the purpose of the collection of personal information.							
Compliance Analysis	Identifying the Purpose	Provide the authority for the collection (e.g. an Act of the Legislature, by-law, law enforcement, lawfully authorised activies, etc.)							
Compliance Analysis	Consent	Provide details how personal information/data will be collected (e.g. direct or indirect collection? Describe the consent mechanism (e.g. Will notice of collection or consent be used?).							
Compliance Analysis	Consent	Provide details on how children's information will be COLLECTED. Please also provide any information regarding the handling children's information by your company.							
Compliance Analysis	Limiting Collection	Identify and list all necessary personal information (or personal data) (e.g. name, phone number, email, etc.) that will be COLLECTED from the data subject(s), including non-personal information that may enable identification of a data suject when linked or combined with other data (e.g. IP addresses, unique device identifier, referrer URL, location, time zone, analytics, etc.). Provide reasons for the collection for each of the data identified.							
Compliance Analysis	Limiting Collection	How will the information be recorded? ((on paper, electronically, audio recordings, visual image recordings, or other (please specify))							
Compliance Analysis	Limiting Use, Disclosure & Retention	Provide details how each of the information/data identified in (4) above will be USED.							
Compliance Analysis	Limiting Use, Disclosure & Retention	Identify and list all staff who will use and/or have access to any and all of the personal information/data identified in above. Provide reasons for use/access by staff							
Compliance Analysis	Limiting Use, Disclosure & Retention	Identify and list all personal & non-personal information/data that will be DISCLOSED to the third parties, apart from the City staff (e.g. agents, contractors, processors, sub-processors, etc.). Provide reasons for disclosure and describe how disclosure is made (e.g. email, mail, oral etc.)							
Compliance Analysis	Limiting Use, Disclosure & Retention	Provide details how law enforcement or government requests will be processed and handled, include staff who will be responsible for the task.							
Compliance Analysis	Limiting Use, Disclosure & Retention	Provide details the formats and how long the personal & non-personal information/data will be retained and the justification(s) for the retention period(s).							
Compliance Analysis	Accuracy	Will the use of inaccurate personal information adversely affect the data subjects? Provide details on what measures will be in place to ensure personal information is not used unless it is accurate, and up to date. Provide explanation.							
Compliance Analysis	Accuracy	Provide details on the process for correction of personal information.							
Compliance Analysis	Safeguard	Provide details, if not already noted in the City's IT Security Assessment, security or safeguard measures that have been put in place to protect personal information, e.g. employee's instructions on handling of personal data, access management, physical security, education & training, etc.							
Compliance Analysis	Safeguard	Provide data storage location(s) and providers' information.							
Compliance Analysis	Safeguard	Provide details on details on de-identification, anonymisation, and/or re-identification processes concerning the personal data involved with this project/service.							
Compliance Analysis	Safeguard	Provide details how personal information/data collected via the service provider, if applicable, will be returned to the City, whether upon request by the City or upon expiration/termination of the agreement.							
Compliance Analysis	Safeguard	Provide details on how personal data will be deleted/destroyed, including those stored in the backups.							
Compliance Analysis	Safeguard	Will there be any privacy audit process in place? Please provide details.							
Compliance Analysis	Individual Access	Provide details on how data subjects can access, correct, update, or delete their personal information.							
Compliance Analysis	Individual Access	Will data subjects also be able to access their usage history, analytics, and other non-personal information/data, etc.? Please explain your answer.							
Compliance Analysis	Openness & Transparency	Are operational policies, procedures, info sheet, or guidelines available to explain how personal information is handled and protected for the benefits of the public/data subjects? How are they made available?

Compliance Analysis	Challenging Compliance	Provide details on how privacy inquiries/complaints/breaches/incidents are handled and processed with respect to your project/service/company.							

Cybersecurity Impact Risk Assessment (SaaS)

The City requires information on any SaaS (Software-as-a-Service) application that may access, store, transmit or transact any City data of any classification. The purpose of this questionnaire is to obtain information and context to properly assess the acceptability of the SaaS solution.

Please complete the Cybersecurity Impact Assessment (SaaS) in the City's e-bidding system if the solution you are recommending is a SaaS solution.

Indicate N/A in the table if you are not submitting a SaaS solution.

Category	Req. #	Requirement	Response *	CITY USE ONLY - Comments
Mandatory Requirement	1.1	The solution must integrate with City's identity solutions. MS Entra (preferred) via modern authentication methods (AAD B2B, OIDC, OAuth2 etc.) Or at a minimum, on premise Active Directory (via ADFS using SAML) ideally for SSO (single sign-on). The City must be CSP (credential service provider) to your solution's role as RP (relying party). NOTE: Edge case exceptions may occur such as City is RP, your service is CSP or no ADFS is required, in which case the City shall indicate it as such.		
Mandatory Requirement	1.2	Data must be encrypted at rest. Please describe algorithm, mode and key management details.		
Mandatory Requirement	1.3	Data must be encrypted during transmission. Please describe algorithm, mode and key exchange details.		
Requirement	1.4	City may require data to be retained for up to 7 years. Describe options available.		
Application & Application Interface Security	2.1	1. How do you detect security defects in your code prior to releasing it to production? 2. What automated testing tools do you use?		
Application & Application Interface Security	2.2	How do you assess your application for security vulnerabilities prior to production deployment?		
Application & Application Interface Security	2.3	Do you implement a supply chain security management program? Please describe in detail.		
Application & Application Interface Security	2.4	1. Please describe your application and supporting infrastructure design. 2. Does it include or implement any business logic and integrity controls to avoid possible corruption of data? Please describe in detail.		
Application & Application Interface Security	2.5	Does your solution also include mobile applications for the client devices? If so: 1. Do you publish your application(s) on the App Store (if iOS) and/or the Play Store (if Android)? 2. Do you adhere to Apple and/or Google's recommended developer practices? (Example: Apple's App Store Review Guidelines and all applicable laws, etc.) 3. Does your mobile application require re-configuration of the client device? (Example: rooting or device is required, etc.)		
Audit & Compliance	3.1	1. Does your organization's security program include independent third party auditing? 2. Can you provide such artifacts or compliance documentation? Example: SSAE 18 SOC2 Type 1 or Type 2		
Audit & Compliance	3.2	1. Can you describe your network and cloud infrastructure penetration testing methodology? 2. How do you adhere to industry best practices?		
Business Continuity	4.1	1. Describe your ability to recover customer data in case of a failure or data loss. 2. What is your RTO (recovery time objective) and RPO (recovery point objective)?		
Business Continuity	4.2	1. Do you have a business continuity strategy? 2. Does the strategy adhere to any standard? 3. Can you describe it in detail?		
Business Continuity	4.3	1. Do you test your business continuity plans and disaster recovery plans? 2. What is the frequency of testing? 3. What are the criteria to trigger such testing?		
Business Continuity	4.4	1. What is your Service Level Agreement? 2. Can you provide the details?		
Business Continuity	4.5	Are all staff (internal/contractors) aware of their roles and responsibilities regarding the business continuity policies and procedures?		
Business Continuity	4.6	1. Do you have control capabilities to enforce tenant data retention policies? 2. Can they be customized for each tenant?		
Business Continuity	4.7	Have you implemented backup or redundancy mechanisms to ensure compliance with regulatory, statutory, contractual or business requirements?		
Business Continuity	4.8	Please describe your methodology for testing the backup and redundancy mechanisms		
Change Control	5.1	1. Do you have "build/configuration" standards? Do you maintain a repository of installation and configuration documentation? 2. If not, in lieu of build documentation do you implement infrastructure as code paradigm? 3. If so please describe the general details of the implementation such as service used, template etc. (example: AWS cloud formation)		
Change Control	5.2	How do you restrict and monitor the installation of unauthorized software in the environment?		
Change Control	5.3	1. Describe your change control process. 2. What evaluation standards do you use to approve changes? 3. Do you have roll-back mechanisms?		
Data Security	6.1	1. Describe what options tenants have to encrypt and secure their data? 2. Does the encryption include backups and stored data as well as transmitted data?		
Data Security	6.2	Describe your encryption standards for data transmission.		
Data Security	6.3	Describe your procedures and policies that ensure no sensitive data is used in non-production environment.

WWW.BIDSANDTENDERS.COM – ORIGINAL DOCUMENT SOURCE

Data Security	6.4	What secure deletion methodology do you implement both physically and logically?		
Data Security	6.5	1. What is the procedure for exiting the service agreement? 2. What happens with tenant data? 3. Are assurances provided that tenant data has been securely removed and transferred back to the tenant?		
Data Security	6.6	Please describe controls around data segregation specific to each tenant.		
Data Security	6.7	List any other vendor or third party that has access to tenant data or any subset of the data.		
Data Security	6.8	1. Are tenants able to encrypt the data using their own encryption keys or do you provide unique keys? 2. Please describe available options.		
Data Security	6.9	1. Do you encrypt tenant data at rest (on disk/storage) within your environment? 2. Please describe the details.		
Data Centre Security	7.1	Describe your asset management methodology.		
Data Centre Security	7.2	Describe your physical access controls.		
Data Centre Security	7.3	Do you restrict access by role on need to know basis?		
Risk Management	8.1	Do you adhere to industry recognized baselines for each of your infrastructure components?		
Risk Management	8.2	1. Does your security program adhere to any recognized industry standards and are they compliant to any standards (ISO27001, etc.)? 2. If so please indicate the standards and provide details.		
Risk Management	8.3	1. Does your policy address any potential violations of the policy by staff and/or contractors? Please describe.		
Risk Management	8.4	1. Please provide Information Security and Privacy policy (redactions where applicable are acceptable). 2. What are the criteria that you use to inform your customers of any material changes to these policies?		
Risk Management	8.5	How often do you review your Information Security and Privacy policies?		
Risk Management	8.6	1. Describe the systems in place to monitor for privacy breaches 2. Describe notification process in the event of breach of tenant data.		
Human Resources Security	9.1	Are all employees, contractors and relevant third parties subject to background verification pursuant to local laws?		
Human Resources Security	9.2	Are your employees adequately trained regarding security elements of their role?		
Human Resources Security	9.3	Are all relevant personnel required to sign NDA or Confidentiality Agreements prior to accessing tenant data?		
Identity Access Management	10.1	How do you restrict, log and monitor access to your systems?		
Identity Access Management	10.2	How do you monitor and log privileged access to your systems?		
Identity Access Management	10.3	How do you ensure that access to data is granted on as needed basis?		
Identity Access Management	10.4	Do you use multi factor authentication for all privileged access?		
Identity Access Management	10.5	How do you prevent unauthorized access to systems, applications, tenant data or source code?		
Identity Access Management	10.6	Describe your process for granting and documenting approval for access of tenant data.		
Identity Access Management	10.7	1. Do you verify privileged access on periodic basis? 2. Please describe your process.		
Identity Access Management	10.8	1. Does your system integrate with any IDaaS services (PingID, Okta, etc.)? If so, please list the various services used.		
Identity Access Management	10.9	Does your system support any standard authentication and authorization protocols (SAML, OIDC etc.)?		
Identity Access Management	10.10	Describe your methodology for de-provisioning and revocation of access to systems and tenant data.		
Infrastructure and Virtualization Security	11.1	1. Please describe your security detection and monitoring at a high level. 2. Are there sufficient data sources available to perform root cause analysis during incident response?		
Infrastructure and Virtualization Security	11.2	1. Are the audit logs preserved from tampering? 2. Who has access to audit logs?		
Infrastructure and Virtualization Security	11.3	Do you provide tenants with separate test and production environments?		
Infrastructure and Virtualization Security	11.4	Describe the segregation between production and non-production environments.		
Infrastructure and Virtualization Security	11.5	Are system and network environments protected by a firewall or virtual firewall to ensure business and customer security requirements?		
Infrastructure and Virtualization Security	11.6	Describe access controls on the hypervisor level.		
Incident Management	12.1	Do you have a documented security incident response plan?		
Incident Management	12.2	Do you regularly test your incident response plan?		
Incident Management	12.3	1. Does your monitoring infrastructure allow for identification of events related to a specific tenant? 2. Can these logs be forwarded to the tenant?		
Incident Management	12.4	Do you enforce and attest to tenant data separation when producing data in response to legal subpoenas?		
Supply Chain Management	13.1	Do third-party agreements include provision for the security and protection of information and assets?		
Supply Chain Management	13.2	Do you permit tenants to perform independent vulnerability assessments?		
Threat and Vulnerability Management	14.1	Describe your endpoint protection controls. Are these controls applied to every system connected to your cloud infrastructure?		
Threat and Vulnerability Management	14.2	Describe your network protection controls.		
Threat and Vulnerability Management	14.3	Describe your intrusion prevention mechanisms.		
Threat and Vulnerability Management	14.4	Describe your security patch management methodology.		
Security Program	15.1	1. Please describe your organization's information security program. 2. Is it based upon any recognized security standard?		

PREVIEW
TO DOWNLOAD AN UNMARKED VERSION OF THIS FILE YOU MUST BE A REGISTERED PLAN TAKER
WWW.BIDSMARTENDERS.COM – ORIGINAL DOCUMENT SOURCE

Security Program	15.2	1. Is the person responsible for the security program a member of the management team? 2. Who does this person report to? Please indicate the approximate size of the security team.		
Security Program	15.3	1. If your organization does application development does it implement a secure development program? 2. Does the program address OWASP top ten or other recognized standards on application security?		
Security Program	15.4	As a first step toward PQC (post-quantum crypto) migration has a crypto inventory of your organization been planned or started in your security program?		
Integration	16.1	What methods does the system use to integrate with other SaaS or on premise systems?		
Integration	16.2	Is the solution able to consume RESTful APIs via an API Gateway?		
Integration	16.3	Is the solution able to deploy its RESTful APIs to an API Gateway?		
Integration	16.4	Please describe a way the solution can integrate with an on premise system in a loose coupled manner in a SOA (service oriented architecture) / micro-services architecture design		
Integration	16.5	Please describe your method of sending email notification (to registrants & staff) from this system.		
Product Information of Proposed Solution	17.1	Please provide details of services being offered through this SaaS application.		
Product Information of Proposed Solution	17.2	Please provide an architecture diagram of your proposed solution as a part of the proposal		
Product Information of Proposed Solution	17.3	How is data being processed (i.e. who has access to customer data?)		
Product Information of Proposed Solution	17.4	1. How does the system handle performance during peak usage? 2. What contingencies you may have in place to handle issues around performance?		
Addendum - Suppliers with Email Features	18.1	The City requires that your email solution does not require any updates to the City's MX, SPF, etc. records (you must not be sending to the City as @mississauga.ca or to the public as @mississauga.ca but see requirement 3)		
Addendum - Suppliers with Email Features	18.2	Does the email need to be sent to City of Mississauga staff, the public or both?		
Addendum - Suppliers with Email Features	18.3	Does email integration require or does not require spoofing of @mississauga.ca? The City can handle external mail domains and overwrite with @mississauga.ca if it is required to be sent to the City as @mississauga.ca. The City discourages situations where the email must be sent to the public as @mississauga.ca when it does not originate from City email infrastructure.		
Addendum - Suppliers with Email Features	18.4	Does email integration also require access to calendar and GAL (global address book)?		
Addendum - Suppliers with Email Features	18.5	Please describe the originating mail domain and platform of the email source, example: Exchange Online, AWS, 3rd party service (Send Grid), etc.		
Addendum - Suppliers with Email Features	18.6	If mail platforms such as Send Grid etc. are used (as per requirement 6) please confirm if MFA is enabled on root/privileged accounts of service		
Addendum - Suppliers with Email Features	18.7	Please provide details on any additional mail controls (SPF, DKIM, DMARC, TLS configuration/policy, S/MIME, digital signing, content inspection (DLP)

Cybersecurity Risk Assessment Questionnaire for Suppliers Providing On-Prem (non-cloud) or IT Goods/Services

The purpose of this questionnaire is to perform due diligence and evaluate the cybersecurity practices, policies, and capabilities of the potential vendor that the City is planning to engage with. Its aim is to identify, manage, and mitigate risks within the supply chain that could impact the security and integrity of City's operations.

Complete Cybersecurity Impact Assessment On-Prem (non-cloud) in the City's e-bidding system if the solution you are submitting is an On-Prem (non-cloud) solution.

Indicate N/A in the table if you are not submitting an On-Prem (non-cloud) solution.

Category	Req #	Requirement	Response *	CITY USE ONLY - Comments
Supplier Background	1.1	Please provide a brief description of your organization and products or services offered to the City.		
Supplier Background	1.2	Provide examples of similar clients (in size and industry) that you have worked with?		
Supplier Background	1.3	What is your company's growth history over the past five years?		
Supplier Background	1.4	Please provide minimum of 2 references from current or past clients.		
Security & Compliance	2.1	Do you adhere to industry accepted security standards and regulations? For example, ISO/IEC 27001, NIST CSF, CIS, PCI DSS etc. If so, provide supporting documentation and/or certification.		
Security & Compliance	2.2	Do you have formal company-wide information security policies and privacy policies in place? If so, provide supporting documentation.		
Security & Compliance	2.3	Does your organization have hardening standards in place for systems and network devices (e.g., servers, endpoints, network devices)? If so, describe the standards used.		
Security & Compliance	2.4	Are your employees required to go through background checks before they are hired?		
Security & Compliance	2.5	Is cybersecurity training a mandatory requirement for personnel who have administrative rights to your environment and systems? If so, provide high level details.		
Security & Compliance	2.6	What measures do you take to secure your network against external and internal threats?		
Security & Compliance	2.7	Please describe your security detection and monitoring capabilities at a high level.		
Business Continuity, Disaster Recovery & Incident Management	3.1	Describe your business continuity and disaster recovery plans. Provide supporting documentation.		
Business Continuity, Disaster Recovery & Incident Management	3.2	How often do you test your disaster recovery procedures?		
Business Continuity, Disaster Recovery & Incident Management	3.3	Provide examples of past incidents and how your disaster recovery plan was executed?		
Business Continuity, Disaster Recovery & Incident Management	3.4	Do you have a formal incident response plan in case of a data breach or cyber attack? If so, provide supporting documentation.		
Business Continuity, Disaster Recovery & Incident Management	3.5	How do you identify and respond to security incidents, including those originating from your cybersecurity supply chain?		
Business Continuity, Disaster Recovery & Incident Management	3.6	In the event of a data breach, what are your notification procedures and SLA to notify your partners, customers and other stakeholders?		
Business Continuity, Disaster Recovery & Incident Management	3.7	How do you actively identify and disclose vulnerabilities in your products or services?		
Business Continuity, Disaster Recovery & Incident Management	3.8	Do you have a vulnerability reporting process in place to allow external parties to report vulnerabilities in your products and services? If so, what is your average response time to remediate the reported vulnerability?		
Supplier Supply Chain Risk Management	4.1	Describe your supply chain risk management (SCRM) strategy.		
Supplier Supply Chain Risk Management	4.2	How do you assess new and existing suppliers' cybersecurity and supply chain risk postures?		
Supplier Supply Chain Risk Management	4.3	How do you assess and manage risks posed by your subcontractors or downstream suppliers?		
Supplier Supply Chain Risk Management	4.4	Provide examples of how you've managed supply chain disruptions in the past?		
Supplier Supply Chain Risk Management	4.5	Do you include contractual obligations to protect information and information systems handled by your suppliers/3rd party vendors?

Cybersecurity Risk Assessment Questionnaire for Consulting Engagements

If any third party processes and/or stores city data, the City requires information on any application that may access, store, transmit or transact any City data of any classification. The purpose of this questionnaire is to obtain information and context to properly assess the level of risk to the City.

Category	Req #	Requirement	Response *	CITY USE ONLY - Comments
Mandatory Requirement	1.1	Data must be encrypted at rest. Please describe algorithm, mode and key management details.		
Mandatory Requirement	1.2	Data must be encrypted during transmission. Please describe algorithm, mode and key exchange details.		
Security & Compliance	2.1	1. Does your organization's security program include independent third party auditing? 2. Can you provide such artifacts or compliance documentation? Example: SSAE 18 SOC2 Type 1 or Type 2		
Security & Compliance	2.2	1. Can you describe your network and cloud infrastructure penetration testing methodology? 2. How do you adhere to industry best practices?		
Security & Compliance	2.3	Describe your encryption standards for data transmission.		
Security & Compliance	2.4	How do you restrict and monitor the installation of unauthorized software in the environment?		
Security & Compliance	2.5	What secure deletion methodology do you implement both physically and logically?		
Security & Compliance	2.6	List any other vendor or third party that has access to client data or any subset of the data.		
Security & Compliance	2.7	Please describe your security detection and monitoring capabilities at a high level.		
Security & Compliance	2.8	Do you adhere to industry recognized baselines for each of your infrastructure components?		
Security & Compliance	2.9	1. Does your security program adhere to any recognized industry standards and are they compliant to any standards (ISO27001, etc.)? 2. If so please indicate the standards and provide details.		
Security & Compliance	2.10	1. Does your policy address any potential violations of the policy by staff and/or contractors? 2. Please describe.		
Security & Compliance	2.11	1. Please provide Information Security and Privacy policy (redactions where applicable are acceptable). 2. What are the criteria that you use to inform your customers of any material changes to these policies?		
Security & Compliance	2.12	How often do you review your Information Security and Privacy policies?		
Security & Compliance	2.13	1. Describe the systems in place to monitor for privacy breaches? 2. Describe notification process in the event of breach of client data.		
Security & Compliance	2.14	Are all employees, contractors and relevant third parties subject to background verification pursuant to local laws?		
Security & Compliance	2.15	Are your employees adequately trained regarding security elements of their role?		
Security & Compliance	2.16	Are all relevant personnel required to sign NDA (or Confidentiality Agreements prior to accessing client data?		
Security & Compliance	2.17	How do you restrict, log and monitor access to your systems?		
Security & Compliance	2.18	How do you monitor and log privileged access to your systems?		
Security & Compliance	2.19	How do you ensure that access to data is granted on as needed basis?		
Security & Compliance	2.20	Do you use multi factor authentication for all privileged access?		
Security & Compliance	2.21	Describe your process for granting and documenting approval for access of client data.		
Security & Compliance	2.22	1. Do you verify privileged access on periodic basis? 2. Please describe your process.		
Security & Compliance	2.23	1. Please describe your security detection and monitoring at a high level. 2. Are there sufficient data sources available to perform root cause analysis during incident response?		
Security & Compliance	2.24	1. Are the audit logs preserved from tampering? 2. Who has access to audit logs?		
Security & Compliance	2.25	Do you have a documented security incident response plan?		
Security & Compliance	2.26	Do you regularly test your incident response plan?		
Security & Compliance	2.27	Do third-party agreements include provision for the security and protection of information and assets?		
Security & Compliance	2.28	Describe your endpoint protection controls. Are these controls applied to every system connected to your cloud infrastructure?		
Security & Compliance	2.29	Describe your network protection controls.		
Security & Compliance	2.30	Describe your intrusion prevention mechanisms.		
Security & Compliance	2.31	Describe your security patch management methodology.		
Security & Compliance	2.32	1. Please describe your organization's information security program. 2. Is it based upon any recognized security standard?		
Security & Compliance	2.33	1. Is the person responsible for the security program a member of the management team? 2. Who does this person report to? Please indicate the approximate size of the security team.

Stage III: Sustainability Criteria - Sustainable Leadership Questionnaire

Sustainable Procurement

The City of Mississauga is committed to continuously improving the social and environmental impacts of its procurement of Goods and Services in a transparent and accountable way that balances fiscal responsibility, social equity, Indigenous reconciliation and environmental stewardship.

Please answer the following questions. If you respond 'Yes' to a question, you must upload supporting documentation. Each question is scored as 1 point for 'Yes' with valid documentation and 0 points for 'No'. Supporting documentation examples are listed below.

Evaluation Weight = 2.50 points

Category	Question	Response (Yes/No) *	Is additional documentation included in Document Uploads? *
Environmental	Does your organization have any policies, practices or targets related to reducing energy use and/or greenhouse gas emissions in your operations? Acceptable Documentation Examples: Energy or GHG reduction policy or strategy Annual sustainability report referencing energy/GHG initiatives Internal procedures or operational guidelines on energy/GHG Employee communications or training materials Descriptions of planned initiatives or future targets .	◯ Yes ◯ No	◯ Yes ◯ No
Environmental	Does your organization have specific policies, practices or targets related to reducing waste and/or diverting waste from landfills (e.g., reuse, refurbishing, recycling, composting)? Acceptable Documentation Examples: Waste reduction or diversion policy/strategy Annual sustainability report detailing waste programs Internal procedures for recycling, composting, or reusing materials Communication or signage related to staff waste management Documentation of future initiatives in this area .	◯ Yes ◯ No	◯ Yes ◯ No
Social	Does your organization have an apprenticeship, paid internship, or work experience program that targets equity-deserving groups (e.g., Indigenous people, women, racialized people, persons with disabilities, newcomers, 2SLGBTQ+)? Acceptable Documentation Examples: HR policies supporting inclusion of equity-deserving groups Descriptions of paid programs or internal memos Partnership agreements with community organizations Metrics or targets for equity hiring/internship participation Strategic plans or future initiatives focused on equity groups .	◯ Yes ◯ No	◯ Yes ◯ No
Social	Does your organization contribute to the sustainability of the community in which it operates (e.g., local hiring, partnerships, community development programs, volunteerism, charitable contributions, being a social enterprise, etc.)? Acceptable Documentation Examples: Evidence of local workforce hiring, training, or mentoring programs Community engagement program overviews or reports Proof of charitable contributions or volunteer programs Subcontracting records showing local/diverse supplier use Certifications as a not-for-profit, diverse supplier, or social enterprise .	◯ Yes ◯ No	◯ Yes ◯ No
Indigenous	Does your organization work toward Reconciliation with Indigenous Peoples (e.g., Indigenous hiring, community engagement, procurement from Indigenous businesses, cultural initiatives)? Acceptable Documentation Examples: Reconciliation action plans or policy statements Hiring, training, or procurement from Indigenous businesses Partnership letters with Indigenous communities or organizations Records of cultural initiatives or engagement activities Descriptions of planned Reconciliation-focused actions .	◯ Yes ◯ No	◯ Yes ◯ No

Stage III: Sustainability Criteria - Training & Apprenticeship Strategy

Please complete Sustainability Criteria - Training & Apprenticeship Strategy.

Please explain how, if awarded this Contract, the bidder will provide training and apprenticeship opportunities as part of the performance of this Contract:

The City will evaluate bids on the basis of the number of hours committed and the robustness of the strategy to deliver these hours.

Upload all documents, in a single zip file, to Document Upload: Sustainability Criteria.

Evaluation Weight = 2.50 points

Line Item	Category	Criteria	Is additional documentation included in Document Uploads? (Yes/No) *	Vendor Response *
1	Training & Apprenticeship Strategy	Provide the number of hours that the bidder will commit to provide to apprentices, paid interns, and paid work experience positions working on this Contract; and	◯ Yes ◯ No	
2	Training & Apprenticeship Strategy	Provide a detailed strategy for how the bidder will meet the above commitment, including how the bidder proposes to allocate the hours during the life of the Contract.	◯ Yes ◯ No

Bidder Declaration

The respondent/bidder (as applicable) hereby acknowledges and agrees:

1 **THAT** the Request for Prequalification (RFPQ)/ Negotiated RFP (NRFP)/Request for Expression of Interest (RFEI)/Request for Information (RFI) process (as applicable) will be governed by the terms and conditions of the bid request, and that, among other things, such terms and conditions confirm that this procurement process does not constitute a formal, legally binding bidding process (and for greater certainty, does not give rise to a Contract A bidding process), and that no legal relationship or obligation regarding the procurement of any good or service will be created between The Corporation of the City of Mississauga (the "City") and the respondent/bidder unless and until the City and the respondent/bidder execute a written agreement for the work or the respondent/bidder is awarded a contract pursuant to a subsequent binding procurement process.

2 **THAT** no person, firm or corporation other than the respondent/bidder has any interest in this submission or in any contract that may result from this submission.

3 **THAT** this submission is made without any connection, knowledge, comparison of figures or arrangement with any other company, firm or person making a submission for the same work and is in all respects fair and without collusion or fraud.

4 **THAT** no member of Council of the City, or any officer or employee of the City is, or will become interested directly or indirectly as a contracting party or otherwise in, or in the performance of, any contract, or in the supplies, work or business to which it relates or in any portion of the profits thereof, or in any such supplies to be used therein or any of the monies to be derived therefrom.

5 **THAT:**

a) each one of the respondent/bidder, its subcontractors and suppliers is in compliance with all municipal laws and regulations as they pertain to the City in respect of the operation of its respective business.

b) neither the respondent/bidder nor any of its subcontractors or suppliers:

1 is currently or was, within the past two years, involved in judicial or arbitral proceedings against, by, or involving the City;

2 is currently or was, within the past two years, involved in a claim against or by the City with respect to any other contract, proposal, submission or business transaction;

3 has been convicted of a statutory offence and/or fraudulent act relating to the City within the past two years; or

4 is related to or controlled by another person or entity to whom/which paragraph (1), (2) or (3) immediately above applies; or

5 is related to or controlled by another person or entity that is not in compliance with paragraph 5(a) above.

c) neither the respondent/bidder nor its personnel, representatives, subcontractors or anyone having an ownership interest in the respondent/bidder, have economic or financial sanctions or trade embargoes imposed against them by the Federal Government of Canada.

6 **THAT** the respondent/bidder declares that if a contract results from this submission, it will ensure the ethical treatment of its personnel, subcontractors and subcontractors' personnel and will at all times comply with fair labour practices, including but not limited to providing basic labour rights, wages and compensation.

7 **THAT** the respondent/bidder agrees that if any statement contained in Clauses #2, 3, 4, 5 or 6 is untrue or incorrect, the City shall be entitled, at its sole discretion, to reject this submission or terminate any contract that may result from this submission and to pursue any other legal recourse the City deems appropriate.

8 **THAT** the content of this submission is true and accurate in all material respects, including pricing if required by the bid request, in accordance with the instruction in the bid request. The respondent/bidder acknowledges that any inaccurate, misleading or incomplete information could adversely impact the acceptance of its submission or its eligibility for future work.

9 **THAT** if required by the bid request, the respondent/bidder has provided all submittals identified in the bid request, including as applicable (a) an agreement to bond, completed and certified by a surety company licensed to conduct business in the Province of Ontario and acceptable to the City, (b) a statement of insurability, and (c) WSIB Clearance Certificate.

10 **THAT** if this bid is accepted, the bidder agrees to comply with the City's Supplier Code of Conduct. Further, the bidder shall comply with the City's Procurement By-law and all applicable procurement policies.

☐ I/WE agree to be bound by the terms and conditions of the procurement process and have authority to bind the Corporation and submit this Bid on behalf of the Bidder.
The Bidder shall declare any potential conflict of interest that could arise from bidding
on this bid. Do you have a potential conflict of interest? ○ **Yes** ○ **No**

The Bidder acknowledges and agrees that the addendum/addenda below form part of the Bid Document

Please check the box in the column **"I have reviewed this addendum"** below to acknowledge each of the addenda.

File Name	I have reviewed the below addendum and attachments (if applicable)	Pages
There have not been any addenda issued for this bid.
