ADDENDUM NOTICE

Addendum #: 4

Addendum Issue Date: January 21, 2026
Bid No: RFEOI25-466
Description: AI for City Building Lab
Closing Date: Tuesday, May 19, 2026 3:00 PM

THE additions, deletions and/or revisions as hereinafter specified, shall form an integral part of the bid document and shall be read in conjunction with the requirements set forth in the bid document.

THE Addendum shall take precedence over all requirements to the aforementioned information in which it may prove to be at variance.

Part 1 – Questions and Answers:

Question 1:

Document 1, #4
Will you accept multiple RFEOI submissions from respondents prior to the closing time? This would allow us to submit multiple responses in the event we wish to recommend more than one solution for all requirements over the duration of the open period.

Answer 1:

Multiple submissions are permitted where each one reflects a distinct solution or product. Each submission must be fully independent and not constitute portions or components of a single unified solution.

Question 2:

Appendix A, #7
Multiple Critical Use Cases have been identified as key areas where technology and AI can deliver meaningful improvements. A desire for off-the-shelf or near completed solutions were identified as preferred. Given the diversity of the use-cases and the likelihood of their being multiple solutions required/recommended to address them, are we able to submit a response to Section 13 for each solution we wish to propose, applying the five-page limit on a per solution/product basis? Or are you only looking for ONE solution/product to address ALL requirements / use-cases?

Answer 2:

Separate Section 13 responses are permitted where each submission presents a distinct solution or product. Each response should stand independently and remain within the five-page limit, which applies per complete solution rather than portions of a single offering. If a single, comprehensive solution fully addresses all use cases, it may be submitted as one response.

Question 3:

As noted in Addendum 2, posted November 20, the project name has been changed to RFEOI25-466 AI for City Building Lab from AI for Planning Applications, however a bid was posted on Biddingo January 16 for the City of Vaughan - Bid No. RFEOI25-466 AI for City Building Lab and the submission closing date is noted as Feb 19, 2026. It directs us to the https://www.vaughan.ca/business/procurement-services. When we check the City of Vaughan procurements and the Bids & tenders procurement site we only see the AI for City Building Lab posted with a May 19, 2026 submission closing date. Can you please confirm this is the same bid as the one posted on Biddingo January 16, confirm there is only 1 bid posted for AI for City Building Lab RFEOI25-466 and confirm the closing date is in fact May 19, 2026 and not Feb 19?

Biddingo
AI for City Building Lab RFEOI25-466
Solicitation Number: RFEOI25-466
Solicitation Name: AI for City Building Lab
Solicitation Type: EOI
Published Date: 01/16/2026

Closing Date: 02/19/2026 03:00:00 PM ET
Status: Open for Bidding
https://www.vaughan.ca/business/procurement-services

Answer 3:

All official information, including addenda, documents, and closing dates, is available only through the City of Vaughan's designated Bidding System as referenced in the procurement document. Respondents should rely exclusively on that system for accurate and up-to-date details.

At this time, there is only one posting for RFEOI25-466 – AI for City Building Lab, and the official closing date remains as shown on the City's authorized procurement platform. Any information appearing on third-party sites such as Biddingo is not issued or maintained by the City and should not be relied upon.
